

The **Institute of Molecular Medicine and Experimental Immunology (IMMEI)** at the Medical faculty of the Rheinische Friedrich Wilhelms University Bonn invites applications for a

## Postdoc in Immunology

to participate in our research program on immune-mediated diseases of the kidney and endocrine organs.

**The position is initially limited to 3 years with an option for extension.**

Bonn is a major centre of immunological research in Germany specialized at inflammatory diseases, microenvironmental and transcriptional immune regulation and immune pattern sensing. The research groups of Prof. Dr. Christian Kurts, Leader of the Department Experimental Immunology, investigate mechanisms underlying immune-mediated diseases and anti-infectious defense in different organs. Our institute is embedded in a lively immunological community consisting of the Cluster of Excellence "ImmunoSensation", several immunological SFB consortia and numerous core facilities offering multi-OMICS analysis.

We are looking for a postdoc that participates to our extensive research program on the immunopathogenesis of kidney disease and modifications by the endocrine system (see for example Jobin et al, Science Transl. Med 2020). We are looking for a scientist with experience in the analysis of mouse models of inflammation/infection. Welcome is bioinformatical expertise in integrating large datasets to arrive at biological insights. Ideal candidates will have excellent interpersonal and communication skills. A PhD in Biology, Biomedicine or in a similar field is required.

Qualified candidates should submit their application including motivation letter, curriculum vitae, list of publications and the names of two referees in one PDF file to the address below.

The University of Bonn is committed to being an equal opportunity employer in our recruitment efforts. Preference will be given to suitably qualified female applicants or handicapped people, all other considerations being equal.

Please send your application, preferably by email, within 3 weeks after announcement of this position to:
